Hello Dave,

I would like to take this opportunity to thank you for a great product and your outstanding customer service. In AccuDock's pursuit for the perfect anchoring solution to offer our floating dock clients, we found that your Eco Mooring system surpassed any other products we reviewed.

In AccuDock's effort to continue focusing on environmentally safe and friendly products, we couldn't be more pleased that your anchor systems are a perfect fit to our initiatives.

AccuDock™ has had the opportunity to offer & utilize the Eco Mooring system to our highest profile projects. We continually receive 100% client satisfaction from our clients, one of which being our S. Korea World Rowing Championship Docks. We anticipate the same accolades from our plans to utilize the anchor system in the installation of the Australian Rowing Docks for June 2013.

Just as our clients couldn't be happier with the performance of your product, we are just as enthusiastic about finding an anchoring system to achieve unparalleled added stabilization and durability to our dock applications.

Given such positive feedback from our clients, it had prompted me to send you this letter of appreciation. I'm looking forward to AccuDock™ continuing to work with you and Boatmoorings.com on our future projects. Wishing you all the best in spreading the word about your extraordinary product to all those who would certainly benefit from it.

Sincerely,

John Harrison
