Dear Dave,

I am writing to thank you and your staff for excellent work you did installing the new forty-one (41) boats mooring field at the Waterfront Park in New London, CT. From the installation of the helix anchors using the latest in global positioning survey technology, the Eco-mooring rodes and the Softlite mooring buoys, the work was done professionally and completed in a timely manner. New London now has a mooring field that is not only boater friendly, but environmentally friendly as well.

Your extensive knowledge of environmentally friendly mooring systems and their installation, and your willingness to share that knowledge with me is greatly appreciated. As you are aware, I knew absolutely nothing about the technical aspects that went into the installation of a mooring system. With your help I was able to gain a rudimentary understanding of mooring systems installation and for that, I am eternally grateful.

I wish you continued success in all your endeavors.

Sincerely,

William R. Hathaway
