Good Day Dave,

This correspondence is to advise that we have in the past been contracted by St. Petersburg Municipal Marina, to annually inspect your product (Eco Mooring System) that is being utilized in the St. Petersburg Mooring Field. We have found very little trouble with any of the components of the system during our inspections, outside of normal wear and tear. We believe this to be a quality product and would certainly be interested in being a contracted installer of this, or any of your other products.

Thank You & Best Regards,

Rob
